Part Number	Labor Category	Part Description	Price per Hour - Includes IFF 05/02/2017 - 05/01/2018
ID SVC - 1	Administrative Support, Specialized	<p><b>Functional Responsibility:</b> Provide administrative support to technical and management level personnel. This includes, but is not limited to, general office support, project administration, event planning and administration, office relocation planning, executive secretarial support, etc. May perform other duties as assigned.</p> <p><b>Minimum Education / Minimum Experience:</b> High school diploma or GED or other equivalent degree program. Five (5)+ years of experience.</p>	\$66.20
ID SVC - 2	Program Manager	<p><b>Functional Responsibility:</b> Plan, organize and direct the efforts of a program team, serve as on-site focal point for technical and administrative matters ensures all data submittals are complete correct and in accordance with contract prior to submittal and track financial data of individual tasks. The Project Manager possesses significant related management experience. Senior executive focal points for all projects within the program responsible for all contractual, staffing, financial, performance and delivery issues.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's Degree and 10 years of experience leading teams or projects.</p>	\$170.90
ID SVC - 3	Senior Program Manager	<p><b>Functional Responsibility:</b> Responsible for integrating multiple IT projects into a coherent overall Program Plan. Ensure that quality assurance and total quality management practices are implemented with regard to the overall contract. Responsible for the financial accountability of the program/contract. Must possess significant related management experience over multiple projects and at least twelve years of relevant industry experience. Senior executive focal point for all projects within the program. Responsible for all contractual, staffing, financial, performance and delivery issues.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's Degree and twelve years of experience leading teams or projects.</p>	\$236.98

Part Number	Labor Category	Part Description	Price per Hour - Includes IFF 05/02/2017 - 05/01/2018
ID SVC - 4	Project Administrator	<p><b>Functional Responsibility:</b> Generate documents and spreadsheets utilized in status reports, trip reports, briefings, etc. Perform contract deliverable tracking, resource movement tracking, and travel administration. Assist the Project Management staff on tasks related to the administration of the task/delivery order. Experienced in the development and administration of project plans and schedules through the use of computer based scheduling software.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's Degree and two (2) years related work experience.</p>	\$69.54
ID SVC - 5	Project Specialist	<p><b>Functional Responsibility:</b> Proficient in writing style, punctuation, grammar and format. Experience in creating technical documents using appropriate computer based software desktop publishing packages including but not limited to Excel, Adobe PageMaker, Ventura, Quark, etc. Train client personnel in subject matter related to information technology. May develop IT course materials. Provide support to data processing and service functions including; 1) documenting IT programs and processes; 2) processing, collecting, testing, maintaining and distributing program and systems documentation; 3) analyzing software code and anomalies; 4) collecting raw information, preparing flow charts, and coding in program languages and 5) word processing support of technical writers and engineers in the preparation of program documentation. Prepare documentation and reports either in standard textual format and/or using commercial software packages to prepare multimedia documents.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's degree and at least one (1) year of experience in technical writing/multimedia or specialized training in said field.</p>	\$104.28

ID SVC - 6	Technical Project Manager	<p><b>Functional Responsibility:</b> Lead the design, development and maintenance of IT projects including developing layout and detailed drawings, preparing written specifications, performing design calculations and developing cost estimates. Plan, design, develop, modify, test and support software applications/interfaces as well as translate design and program specifications into functioning software code. Coordinate project needs with other design disciplines. Investigate project design alternatives as identified by the Senior Design Engineer. Perform research for identification of acceptable materials or equipment. Perform on-site inspection of projects. Senior technical focal point for all projects within the program responsible for all contractual, staffing, financial, performance and delivery issues.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's Degree in an engineering discipline or four (4) years related work experience in such disciplines as Oracle, C++, PowerBuilder, Visual Basic or similar.</p>	\$160.75
ID SVC - 7	Senior Technical Project Lead	<p><b>Functional Responsibility:</b> Possess exceptional expertise in an IT discipline/technology or specific functional area related to IT (environmental compliance for example). Possess a thorough knowledge of design requirements and operational procedures for IT systems, applications and relational databases. Assist the Program/Project Manager in identifying all required system/software/design changes to be incorporated into project documents as well as configuration management databases. Provide oversight and technical review of project tasks and provides functional analysis in order to achieve optimal design configurations. Interpret various regulations, policies and other constraints and assess their impact on project costs.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's Degree in an engineering discipline or related area such as mathematics, environmental sciences, statistics etc. Degree requirements can be substituted for seven (7) years-related work experience.</p>	\$217.24

ID SVC - 18	Systems Engineer	<p><b>Functional Responsibility:</b> Assess requirements for new or modified systems, performing detailed systems design, preparing written specifications, programming and conducting module and integration tests. Train client personnel in subject matter related to information technology. May develop IT course materials. Design and maintain database management systems, use CASE technology and structured requirements analysis methodologies such as information engineering. Knowledge of MIL-STDs and system development processes. Provide specific technical expertise to the project in all areas of technical implementation.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's Degree and two (2) years of experience.</p>	\$124.56
ID SVC - 19	Systems Engineer - Subject Matter Expert (SME)	<p><b>Functional Responsibility:</b> Highly specialized in one or more phases of software systems development, systems integration, or network engineering. Act independently under general direction. Provide technical assistance and advice on complex activities. Formulate/define specifications, develop/modify/maintain complex systems and subsystems using vendor engineering releases and utilities for overall operational systems. Apply analytical techniques when gathering information from users, define work problems, design technology solutions, and develop procedures to resolve the problems. Develop complete specifications to enable computer programmers to prepare required programs. Analyze methods of approach. Review task proposal requirements, gather information, analyze data, prepare project synopses, compare alternatives, prepare specifications, resolve processing problems, coordinate work with programmers and engineers, and orient users to new systems. Work with considerable freedom to make decisions on the techniques and approaches to be used. Prepare recommendations for system improvement for management and user consideration. Provide technical leadership.</p> <p>Apply this leadership in any phase of the system development life cycle support as task requirements dictate and may have a high level of expertise in one area. Plan, recommend, and perform changes. Utilize an accomplished knowledge of multiple technical disciplines, unique applications, and business management practices to develop technical and/or business solutions to client problems. Assist clients in planning and developing objectives and goals. Support client objectives while conforming to the client's operating practices.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor or equivalent, 10+ years of specific experience in designing, developing and deploying engineering solutions for large customers</p>	\$198.21

ID SVC - 20	Senior Systems Engineer	<p><b>Functional Responsibility:</b> Assess requirements for new or modified systems, perform detailed systems design, prepare written specifications, programming and conducting module and integration tests. Design and maintain database management systems, use CASE technology and structured requirements analysis methodologies such as information engineering. Knowledge of MIL-STDs and system development processes. Provide senior level leadership to the project in all areas of technical implementation.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's Degree and four (4) years of experience.</p>	\$178.16
ID SVC - 21	Senior Information Engineer	<p><b>Functional Responsibility:</b> Perform information systems development, systems analysis and design, functional and data requirements analysis, programming, program design and documentation preparation. Implement information engineering projects, systems analysis, design and programming using CASE and IE tools and methods, systems planning, business information planning, and business analysis. Apply, as appropriate, activity and data modeling, transaction flow analysis, internal control and risk analysis and modern business methods and performance measurement techniques. Assist in establishing standards for information systems procedures.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's degree in Computer Science, Information Systems, Engineering or a related field with eight (8) years of general experience.</p>	\$107.26
ID SVC - 22	Principal Information Engineer	<p><b>Functional Responsibility:</b> Mentor government task leaders and acts as project manager directing the efforts of other IE Engineers. Full life- cycle experience and expertise in all areas of the IE Methodology. Apply an enterprise-wide set of disciplines for the management, planning, coordination, analysis, design and construction of information systems on an enterprise-wide basis. Develop analytical and computational techniques and methodology for problem solutions. Experience with manual and automated tools, such as I-CASE, and is familiar with IDEFO process modeling and IDEF 1X data modeling. Plan and manage project schedules, direct the work of other contractors, provide quality assurance reviews and provides consulting services during the planning, analysis, and design phase of information engineering.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's degree in Computer Science, Information Systems, Software Engineering or related field with a minimum of 10 years of demonstrated experience, three (3) of which shall be in the last five (5) years in software engineering and program management in all areas above.</p>	\$150.55

ID SVC - 64	Database Warehousing/Mining Specialist - Subject Matter Expert (SME)	<p><b>Functional Responsibility:</b> Recognized technical expert in the design, implementation and support of data warehousing. Implements business rules via stored procedures, middleware, or other technologies. Define user interfaces and functional specifications. Responsible for verifying accuracy of data, and the maintenance and support of the data warehouse. Experienced in database design, particularly in the integration of multiple data sources into a single repository. Experienced in applying data analysis and statistical techniques on large data sets, to develop predictive models that address and targeted problems. Experienced in utilizing data that is multichannel (web, email, direct mail and call center) in origin and application. Perform sophisticated statistical analysis and also interpret the data and communicate results to technical and non-technical audiences. Highest-level individual contributor in at least one technical area. Utilize expertise in business management practices, industry requirements and information technology disciplines to develop technical and/or business solutions to client problems. High level of diverse technical and industry experience related to a specific skill set. Typically has specialization in a particular technology or business application. Keep abreast of technological developments and industry trends.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor (or equivalent) + 10 years of programming experience</p>	\$169.48
ID SVC - 65	Junior Programmer	<p><b>Functional Responsibility:</b> Perform analysis and develops, integrates, and maintains both systems and applications software as required. Perform enterprise or organization-wide planning and design of technical solutions requiring the application of information technology. Perform analysis and validation of IT requirements. Implement efforts within the systems software domain.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's degree in computer science or related field, with a minimum of three (3) years of experience, of which two (2) must be specialized. A degree is not required with five (5) years overall experience, of which two (2) must be in a selected skill.</p>	\$70.51

ID SVC - 66	Programmer	<p><b>Functional Responsibility:</b> Perform analysis and develops, integrates, and maintains both systems and applications software as required. Perform enterprise or organization-wide planning and design of technical solutions requiring the application of information technology. Perform analysis and validation of IT requirements. Plan and manage efforts within the systems software domain.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's degree in computer science or related field, with a minimum of five (5) years of experience, of which three (3) must be specialized.</p>	\$83.33
ID SVC - 67	Programmer - Principal	<p><b>Functional Responsibility:</b> Provide technical leadership in analyzing functional business applications and design specifications for functional activities. Develop block diagrams and logic flow charts. Translate detailed design into computer software. Test, debug and refine the computer software to produce the required product. Prepare required documentation, including both program-level and user-level documentation. Enhance software to reduce operating time or improve efficiency. Provide technical direction to lower level programmers to ensure program deadlines are met. Apply this leadership in any phase of the system development life cycle support as task requirements dictate and may have a high level of expertise in one area. Plan, recommend, and perform changes. Utilize an accomplished knowledge of multiple technical disciplines, unique applications, and business management practices to develop technical and/or business solutions to client problems. Assist clients in planning and developing objectives and goals. Support client objectives while conforming to the client's operating practices.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelors or equivalent + eight (8) years of experience doing application development</p>	\$135.86

ID SVC - 81	Intermediate Communications Analyst	<p><b>Functional Responsibility:</b> Responsible for supporting the delivery of technical solutions based upon established requirements of enterprise- wide or large scale computer networks. Support design of computer network architecture. Establish general LAN.MAN/WAN administration procedures and provides technical leadership in the integration and test of complex large-scale computer integrated networks. Schedules conversions and cut-overs. May oversee network control center.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's degree with a minimum of two (2) - four (4) years of experience. A degree is not required with a minimum of six (6) years of experience.</p>	\$124.56
ID SVC - 82	Senior Communications Analyst	<p><b>Functional Responsibility:</b> Apply communications/network improvement practices to establish requirements of enterprise-wide or large-scale computer networks. Design large-scale computer network architecture. Establish general LAN/MAN/WAN administration procedures and provides technical leadership in the integration and test of complex large-scale computer-integrated networks. Oversee network control center. Supervise maintenance of systems. May supervise communication analysts.</p> <p><b>Minimum Education / Minimum Experience:</b> Bachelor's degree with a minimum of five (5) years of experience. A degree is not required with a minimum of nine (9) years of experience.</p>	\$126.39
ID SVC - 83	Data Communications Manager	<p><b>Functional Responsibility:</b> Manage a team of data communication technicians and analysts who maintain and support data communication systems. Ensure that adequate and appropriate planning is provided for remote hardware and communications facilities to develop and implement methodologies for analysis, installation, and support of distributed processing client/server systems. Provide coordination in the analysis, acquisition, and installation of hardware, software, and facilities. Manage the training and efforts of a staff engaged in system and network planning, analysis and monitoring activities. Frequently reports to Telecommunications Department Director/Manager.</p> <p><b>Minimum Education / Minimum Experience:</b> A minimum of eight (8) - 10 years of experience in software/hardware LAN and WAN network design and analysis. CCDA or equivalent.</p>	\$170.90
